FDD Abstract

Plans and Specifications of Electric Motors of VVB Elektroindustrie, Berlin;

6 pp; German ;

25X1C

The attached pages, presumably from catalog covering Product No 36100 ("Electric Motors") picture different types of three-phase alternating-current motors produced by the VVB Elektroindustrie, Berlin. Technical specifications appended include such items as type of motor housing, cooling, number of revolutions per minute, power consumption, etc. In two cases the indicated purpose of the motors is industrial stirring and ventilation (blowers).
